

Hantz Bank desires to ensure the greatest level of security for your accounts. Toward that end we will be updating security to Transport Layer Security (TLS) 1.2 on our website. To ensure uninterrupted service, you should confirm that your current operating system and browser support this level of security. Please check the chart below and if you are not running compatible operating system and browser you will need to update them to maintain access to both our **website and your account through online banking after May 15, 2018.**

BROWERS AND OPERATING SYSTEMS	TLS 1.2 COMPATIBILITY NOTES
